

CLUSTER TOOLING

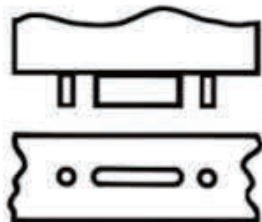

IS COMMONLY USED WHEN MULTIPLE HOLES NEED TO BE PUNCHED CLOSE TOGETHER IN ONE HIT OF THE PRESS

UniPunch provides cluster tooling with both shaped and round holes, designed to your specifications. Depending on hole pattern and material type and thickness, cluster punches can be supplied with replaceable punch inserts.

Cluster

Allows multiple hole patterns in one hit

Required Parameters

- Hole sizes
- Hole centers
- Shaped Holes - Specify type of shape
- Material Thickness
