

PRESS MOUNTING EQUIPMENT

TOOLING MOUNTING SYSTEMS FOR PRESSES AND PRESS BRAKES

T-SLOTTED PLATES

Used to mount modular tooling and gauges in punch presses or stamping presses.

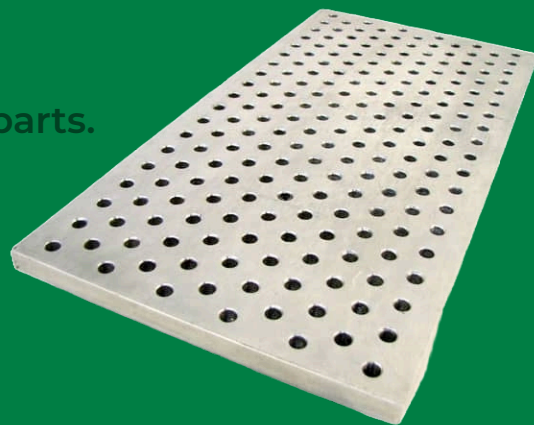

- Can be used in press brakes with angle support brackets. A 1/2" mounting key is available upon request.
- Standard widths from 12" to 30".

UNIVERSAL BASE PLATES

Made of 3/4" thick steel plate and completely covered with uniform pattern of 1/2"-13 tapped holes for bolting units in position.

- Light weight for easier handling and storage.
- Ideal for short runs of small and medium sized parts.
- Standard widths from 12" to 30".
